ME

I am a web developer who has been working with a variety of applications. Specialized in JavaScript and with some front-end frameworks and libraries such as React.js, Redux.js, Meteor.js, Node.js, express.js, media-soup, React-Native and other technologies like CSS, HTML and HTTPS. I truly believe that anyone can be a good mentor regardless of their age or knowledge.

Experience

Full stack developer and Team lead
Actually at Nearsoft

Front-end mobile developer - Web developer
Oct/18/2018- Feb/20/2020

Front-end web developer - Front-end mobile develope
Jun/18/2018 - Oct/18/2018

Front-end web developer - Front-end mobile developer
Mar/17/2017- Jun/18/2018

Education

Engineering in software development
Finished

Bachelor in business administration with a speciality in tourism
Finished

Personal projects

Alchemist.go cli
Alchemist.go it's a command cli powered by Go, it's commands allow you to transmute projects with React.js for the client app and Go for the backend api.
https://github.com/joaquincamara/alchemist

Pixel-desk-os
It's just a little OS power it by React.js
